next level kids

Six Pillars

Safe Places

We create safe and clean spaces for children to learn and explore their faith with grace and love. This means that we are strategic about our environments and team member training to create safety for every child.

Family Partnerships

We view everything that we do as an opportunity to team up with parents in order to help raise children with a strong spiritual foundation and a strong moral foundation as well.

Specialized Environments

Each of our different environments have different curriculum, music, and events that are designed to be age (phase) relevant, fun and engaging for each child.

Consistent Relationships

This means that each child will be exposed to a lot of the same teachers, small group leaders and other children which will produce excitement about coming and comfort once they arrive.

Biblical Focus

This means that everything that we do will be focused around teaching children biblical truths and showing them how to live out those truths as they walk through life.

Fun and Engaging Experiences

We want children to grow up loving church! We place our attention to experiences, activities and lessons that will be enjoyable and memorable for children. We want them to be excited about coming back.
